

Annexe 1: Total homicide rate

Tracking National Homicide Rates: Generating Estimates Using Vital Registration Data

by Kavi Bhalla, Richard Matzopoulos, James Harrison, Lisa Knowlton, Elisabeth Gilgen, and Anna Alvazzi

For all graphs in Annexe 1, countries with fewer than 100 annual homicides have been marked with an asterisk (*). Results from these countries should be viewed with caution because of the small numbers involved. Rates are standardized to the WHO World Standard Population (Ahmad et al., 2001).
